EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ira Schultz (Reg. #28,666) on March 20, 2007.

Please cancel claims 14 and 16.

Election/Restrictions

Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 7 and 13, directed to a non-elected species, previously withdrawn from consideration as a result of an election of species requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 14 and 16, directed to Species II and Species V (respectively) do not require all the limitations of an allowable product claim, and have NOT been rejoined. Accordingly, claims 14 and 16 have been cancelled as indicated above.

Allowable Subject Matter

Claims 1-3, 6, 7, 10, 12, and 13 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including the wire plate has the same peripheral shape as the base, and the four lead wires connect respectively two parts of the anode and two parts of the cathode of the light emitting diode element to the conductive patterns further comprising four terminal portions formed at respective corners on the wire plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
